

I respectfully urge the FCC to reject the NAB's petition 04-160.  
I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Please support XM's ability to provide the kind of programming that I demand and need because of my hight OPTEMPO job in the US Army. Thank You

Respectfully
